## **GLANTREO APPOINTS BRECHBÜHLER AS DISTRIBUTOR IN SWITZERLAND**

*Glantreo Announce HPLC/UPHPLC Columns Partner in Switzerland*

**Cork, Ireland 30 June 2021** – Glantreo are delighted to announce the appointment of Brechbühler as their new official distribution partner in the Swiss market. By partnering with such an innovative company that shares the same values and growth ambitions, it further strengthens the position of Glantreo as an innovative global leader when it comes to developing solutions for HPLC/uHPLC applications.

John Hogan, Chief Commercial Officer (COO) of Glantreo said;

“Brechbühler are the latest addition to our International Distribution network. This network consists primarily of like-minded companies who all share a passion of delivering quality products and service to customers. Brechbühler are no different and we are *looking forward to building a long-lasting relationship with the skilled team at Brechbühler*. Additionally, we are excited about this opportunity for Glantreo as Brechbühler expand the customer base for our *SOLAS™ and EIROSHELL™ columns in the Swiss market*.

Marcello Liberto, CEO of *Brechbühler* said;

*“We are delighted to partner with an innovative company such as Glantreo. We greatly admire and appreciate the quality of materials and products that they produce. Their HPLC & UHPLC column offering is class-leading and allows Brechbühler to expand our offering in Switzerland and more importantly, it ensures we continue to provide innovative solutions to our customers.”*

## **About Glantreo**

Glantreo develop innovative scientific solutions to solve cross-disciplinary issues and have platform technologies that initially began in chromatography that have now been applied to a range of applications.

For over fifteen years, Glantreo have been at the forefront of the development of next generation silicas for Chromatography with fully porous and core shell media. Building on this expertise in silica, Glantreo is a one-in-a-kind company that manufactures its columns entirely in-house thereby allowing it to give its customers and partners the premium columns and service that they want.
